MODULE 4 — Digit Extraction and Number Manipulation

Question: Reverse Integer

Platform: LeetCode

Problem Link: [Reverse Integer]

C Source Code:

```
int reverse(int x) {
    long long rev = 0;

    while (x != 0) {
        int digit = x % 10;

        rev = rev * 10 + digit;
        x = x / 10;
    }

    if (rev > INT_MAX || rev < INT_MIN) {
        return 0;
    }

    return (int)rev;
}
```
