MODULE 3 — Loops and Repeated Computation

Question: Number Line Jumps (Kangaroo)

Platform: HackerRank

Problem Link: [Kangaroo — Number Line Jumps]

C Source Code:

```
char* kangaroo(int x1, int v1, int x2, int v2) {
    if (v1 > v2 && (x2 - x1) % (v1 - v2) == 0)
        return "YES";
    return "NO";
}
```
